He is very reasonable and a really nice guy. **DO NOT DO THIS YOURSELF! DO NOT HIRE ANYONE BUT KENT!** If you shampoo your own carpet, you will own it! Period. Customers always ruin the carpet...every time.

- Install all burned-out light bulbs. (Some fixtures have 2, 3, or 4 bulbs inside them). We are using LED now.
- Insure all batteries are good in fire alarms and CO Detector(s).
- Set the Heat / Cool thermostat to 68° in the winter months and 75° in the summer months. Leave the fan on "Auto".
- Shut off all lights and ventilation fans.

- Leave both garage door openers on the Kitchen Counter when you depart.

- Return the master set of Keys to your landlord when you depart.
- Do not paint anything nor fill holes in the walls
- Be sure to leave the fire extinguisher at the property.
- Be sure to leave the CO Detector at the home.

- Make a list of anything that is broken or in need of repair before the new Tenant moves in.
- Mow the lawn and weed trim, in the summer months and remove snow and practical ice in the winter months.
